Southern California Genealogical Society Speakers Bureau

The Southern California Genealogical Society’s Speakers Bureau offers guest speakers to community organizations, libraries, museums, schools and social clubs. We provide presentations on a wide variety of genealogical topics including how to do genealogical research, recording family history, and making connections through genetic genealogy (DNA). We can present at your conference, meeting or seminar.

Our programs, which are 60 minutes in length with questions and answers, can be customized to fit your needs. We can also provide genealogical workshops lasting more than one hour.

We would appreciate that, whenever possible, you request a speaker 2 months before the date of your program to permit scheduling that time. We also request an honorarium for our speaker.

Please contact the SCGS Speakers Bureau coordinator Charlotte Bocage SpeakersBureau@SCGSGenealogy.com with Speakers Bureau in the Subject line for additional information.
